

RODLYNE MILAN

Degree Program: Nursing

Email: RodlyneMilan2020@gmail.com

Rodelyne Milan is a 2021 graduate of BGM High School and she graduated #5 in her class. She is currently in her second year at Providence University of Haiti on a BGM Scholarship. She said that when she and her classmates visited UPROH their senior year, they had an opportunity to hear about five degree programs that they offered. Rodelyne was so excited to hear that they offered a degree in nursing. After finding out that she had received a scholarship, she was so very excited to move on to a new and exciting chapter in life. She was finally able to allow herself to envision what it would be like to be a nurse. Rodelyne is very grateful to But God Ministries for helping her make her dreams come true.

Rodelyne moved to Galette Chambon when she was twelve. Her family had lived in another farming village in the mountains before moving to Galette Chambon. Her parents are sharecroppers and the farm where they had worked for years shut down, so they found work on another farm and the family moved. Rodelyne has one brother and one sister who are both sponsored in BGM schools. Up until recently, the family had tried to remain in Galette Chambon in spite of the gang activity that became dangerous in the village. However, when people started getting kidnapped, Rodelyne's parents decided it was time to move again for their safety. They moved back to the village where they had once lived. At first Rodelyne moved with them so she could continue helping her mother with her siblings. However, it was hard for her to get internet to take her online classes, so she moved closer to Ganthier to stay with a friend until the rental house became ready. She is very excited about living with her classmates again and starting a new internship program for all of the UPROH nursing students.

Rodelyne feels like the chance to study to become a nurse is the absolute biggest miracle she has ever experienced. As a little girl growing up, she just felt like it was a big blessing to get a hot meal every day at her school. She didn't dare dream of growing up to go to college for free to become a nurse! Now that this is actually happening, she has learned to dream big dreams because she knows that she has a big, big God.
